

POWERFUL POLYMERS  
PAINLESS PROCEDURES  
RAPID RESULTS

# Stephen C Barton

President & CEO

Alchemy-Spetec Co-Owner and President Stephen C. Barton has been at the forefront of the concrete repair industry for over 30 years. Running leak seal crews in his teens, developing breakthrough polyurethane technology in his twenties, and helping grow the market ever since Mr. Barton has been a leader in the field for most of his life.

In 2012 Stephen founded Alchemy Polymers. He wanted to focus specifically on injection resins for sealing leaks, stabilizing soil, and lifting/leveling concrete slabs. Armed with a clear vision for higher quality products and better tech support, he and his team made it a priority to provide customers with the powerful polymers and painless procedures they need to achieve the rapid results their projects demand. Due to this laser focus, they experienced tremendous growth in just a few short years.

That success didn't go unnoticed. A few years later, Alchemy Polymers was approached by Resiplast US/Spetec to discuss a potential partnership. ResiplastUS/Spetec was widely known for its extensive line of polyurethane and acrylic leak seal and water stop products. After months of discussions, negotiations and planning, Alchemy Polymers and Resiplast US/Spetec merged to form Alchemy-Spetec in 2017.

Throughout his career, Stephen has always believed in adding value at the contractor level by understanding the systems he supplies at every step. On any given day, he can be found in the lab formulating a specialty product for a particular application, or on a job site injecting chemicals for a critical project. This level of support has taken Stephen around the world offering site support in dozens of countries creating an extensive international network of customers, design professionals, and peers. His depth of understanding at each step in the chain from chemical formulation to field application provided the foundation on which Stephen could build an international brand.

Mr. Barton graduated from Auburn University with a Bachelor of Science, Business Administration. He also owned and operated a home building and land development business for 10 years. Stephen lives in Atlanta with his wife Karin and their two daughters.

## About Alchemy-Spetec

### The Leak Seal Division

The Alchemy-Spetec Leak Seal Product Line combines a full-system offering of polymer chemical grouts and equipment with perhaps the most experienced technical team in the industry. For any concrete leak seal application, lean on the Alchemy-Spetec team for phone, field, or engineering support. Our growing network of Regional Managers, Independent Representation, and Nationwide Distribution offers industry professionals many levels of opportunity worth discussing with our team. Consultants at Alchemy-Spetec pride themselves on rapid, powerful, and painless scheduling of field and technical support. We invite you to inquire about our bi-annual factory training held at the Tucker, GA-based manufacturing facility where they can learn from the 20+ year average industry experience of our Regional Management and Technical Team.

### The Geotech Division

The Alchemy-Spetec Geotech Product Line offers industry-leading quality, full chemical grout lifting rig training and support, and unmatched contractor support in the field and with sales and marketing. Contact us today to learn about the tangible benefits of joining the Alchemy-Spetec network of geotech contractors. The Alchemy-Spetec MixMaster Pro Gun is a maintenance and production cost-saver for any lifting contractor, while the flagship lifting foams have helped many contractors reduce volume usage while eliminating call-backs. From the Polybadger machine that fits into a pickup truck, to custom boxtruck and trailer rig buildouts, Alchemy-Spetec is widely considered the premier geotechnical chemical grout & equipment supplier. With the additions of ground penetrating radar and penetrometer equipment and support, Alchemy-Spetec is truly on the cutting-edge of the chemical grouting industry.
