

Andrew D. Powell

Division Manager - Geotech

POWERFUL POLYMERS
PAINLESS PROCEDURES
RAPID RESULTS

Andy Powell has been with Alchemy-Spetec since the inception of the company in 2013. His experience includes manufacturing, application, equipment, estimating, field service, and training for the entire product line. While he specialized in geotech products and applications, his experience also includes crack injection and curtain grouting.

TWIC, MARTA Track Safety, and Confined Space Certified, Andy's clients include several state departments of transportation and high profile institutions such as Army Corp of Engineers, Duke Energy, and Florida Power and Light. When he's not estimating projects or training

contractors, Andy enjoys doing engineer presentations and developing untapped markets.

Prior to employment with Alchemy-Spetec, Andy served as Sales Manager and Field Technician for HP Industries, a supplier / contractor for the Concrete Pipe and Precast manufacturing industry. He was responsible for sales, AutoCad, equipment installation and employee training for pipe machinery and reinforcement equipment. His territory included the entire US, Canada, Puerto Rico, Turkey, and China.

The last 8 years of service with HP included running a contracting division performing epoxy and polyurethane injection for infrastructure and utility contractors and engineers such as Layne and TetraTech.

About Alchemy-Spetec

The Leak Seal Division

The Alchemy-Spetec Leak Seal Product Line combines a full-system offering of polymer chemical grouts and equipment with perhaps the most experienced technical team in the industry. For any concrete leak seal application, lean on the Alchemy-Spetec team for phone, field, or engineering support. Our growing network of Regional Managers, Independent Representation, and Nationwide Distribution offers industry professionals many levels of opportunity worth discussing with our team. Consultants at Alchemy-Spetec pride themselves on rapid, powerful, and painless scheduling of field and technical support. We invite you to inquire about our bi-annual factory training held at the Tucker, GA-based manufacturing facility where they can learn from the 20+ year average industry experience of our Regional Management and Technical Team.

The Geotech Division

The Alchemy-Spetec Geotech Product Line offers industry-leading quality, full chemical grout lifting rig training and support, and unmatched contractor support in the field and with sales and marketing. Contact us today to learn about the tangible benefits of joining the Alchemy-Spetec network of geotech contractors. The Alchemy-Spetec MixMaster Pro Gun is a maintenance and production cost-saver for any lifting contractor, while the flagship lifting foams have helped many contractors reduce volume usage while eliminating call-backs. From the Polybadger machine that fits into a pickup truck, to custom boxtruck and trailer rig buildouts, Alchemy-Spetec is widely considered the premier geotechnical chemical grout & equipment supplier. With the additions of ground penetrating radar and penetrometer equipment and support, Alchemy-Spetec is truly on the cutting-edge of the chemical grouting industry.
