

SPETEC SURFACE GUARD

POLYURETHANE STAIN PREVENTER

DESCRIPTION

SPETEC SURFACE GUARD is a water based solution used to protect concrete from polyurethane resin stains.

USES

Preventing foam from staining/bonding to concrete and other surfaces.

ADVANTAGES

- Environmentally safe.
- Biodegradable.
- Zero toxicity.

APPLICATION

Note: the following are a few typical application descriptions. In case of other jobsite parameters, please contact our technical department.

PRELIMINARY ANALYSES

Spetec Surface Guard is only to be used for the prevention of polyurethane stains.

PREPARATION OF THE PRODUCT

Spetec Surface Guard is a concentrate. In a clean five gallon (18.9 liter) pail, thoroughly mix three to four gallons (11.4 to 15.1 liters) of water with one gallon (3.8 liters) of flush.

APPLICATION

Coat surface of concrete with Spetec Surface Guard before injecting an Alchemy-Spetec polyurethane repair product. Coated concrete surface will be resistant to stain from any excess polyurethane resin.

ESTIMATING QUANTITIES

Approximately one to two gallons (3.8 to 7.6 liters) of concentrate per use.

PACKAGING

Spetec Surface Guard is supplied in 5 Gallon Pails (18.9 Liter Pails). In concentrate.

STORAGE AND SHELF LIFE

Store in dry environment between 40° - 80° F (5° - 26° C).

SAFETY PRECAUTIONS

Avoid contact with eyes and skin, always use personal protective equipment in compliance with local regulations. Read the relevant Safety Data Sheet before use. Safety Data Sheets are available on www.alchemy-spetec.com.

When in doubt contact Alchemy-Spetec Technical Service.

FOR INDUSTRIAL USE ONLY. KEEP OUT OF REACH OF CHILDREN. NOT FOR INTERNAL CONSUMPTION. READ SAFETY DATASHEET PRIOR TO EVERY USE.
